Mini Session Chair

Join us for a day of destruction and damages considering the various elements of Commercial Property Coverage from multiple perspectives.

The ISO Form

The program will start with a look at the history of the Standard Fire form and how it has changed through the years. Coverage parts, conditions and exclusions will be considered.

Specialty Coverage

We will then move on to the more specialized areas of coinsurance and time element. From a practical perspective, how do these often misunderstood coverages function? What changes are on the horizon?

Complex Claims Issues

Once we have reviewed the coverage, we will turn to the process of adjusting the more complex commercial property loss. Quantifying and appraising damages and replacement cost issues will be addressed.

Property Insurance Case Law Update

Along with the latest coverage cases industry, we will also consider the coverage implications of recent catastrophes such as the California Wildfires and the legacies of Katrina and other significant cases.

Reinsurance Property Contracts Trends and Terms

Our survey of commercial property insurance coverage will end an analysis of the current trends and terms in property reinsurance.
