

Emerging Risks & Reinsurance

May 22, 2019

being held at

TRANS RE

One Liberty Plaza, 165 Broadway, New York, NY, 10006

“Emerging Risks – defining the exposure, understanding underwriting & pricing aspects, analyzing claims”

Emerging risks include the sharing economy, drones, e-scooters and the Me-Too movement. There are technological advancements like autonomous vehicles, the Internet of Things, cyber and alternative energy. Other factors include climate change, water scarcity, aging demographics & employment practice. Get an overview of all the various emerging risks and exposures. Understand what policyholders face from emerging risks. Learn what insurance and reinsurance companies can do to manage these risks and turn them into opportunities.
